

Coronavirus (COVID-19) Emergency Decontamination & Preventative Cleaning Services

Aqueous Solutions Is Located Onsite at
JFK Airport for Immediate 24/7 Response

All team members are SIDA badged with U.S. Customs Seals, our vehicles are PONYA plated at JFK and LGA. Our emergency response team members have 30 Hour+ OSHA Certifications and are able to board aircraft and access the entire airport without escort. Aqueous Solutions has a working knowledge of AOA rules and regulations, and years of experience working around commercial aircraft and airport equipment.

Schedule An Inspection With Our Coronavirus Response Team
1-800-294-4950**

Aqueous Solutions offers premier cleaning and disinfecting services utilizing methods approved by the U.S.D.A. and major healthcare institutes.

Services include deep cleaning and disinfecting of aircraft, ULD's, machinery, terminals, offices, kitchens, bathrooms, retail locations, hotels, schools, warehouses, transportation hubs, and vehicles including buses and trains.

We utilize the latest best management practices including electrostatic fogging and spraying using broadband disinfectants that quickly kill 99.9% of germs and viruses over large spaces with a very quick turnaround.

**Aqueous Solutions Has Been Practicing Biosafety Cleaning Guidelines
Under USDA Supervision for Nearly 10-Years at JFK Airport**
